

Hi Karen

I am totally in agreement with the aims and intentions of your letter.

I can commit to support the first 2 policies/continued discussions listed. However I could not commit to money being ring-fenced without looking into it further, as I know some politicians say that having lots of funds ring-fenced can make local services and policy-making difficult and hard to reform. However I am totally committed to the principle that the services you mention should be adequately funded from public funds.

With thanks

Cath Sutherland

Green Party candidate Nottingham South
